

2003

Department of the Treasury
Internal Revenue Service

Shareholder's Instructions for Schedule K-1 (Form 1120S)

Shareholder's Share of Income, Credits, Deductions, etc. (For Shareholder's Use Only)

Section references are to the Internal Revenue Code unless otherwise noted.

Changes To Note

- Under the Jobs and Growth Tax Relief Reconciliation Act of 2003, the general tax rates applicable to net capital gains for individuals have been reduced. The new gains rates also apply to qualified dividends under the new section 1(h)(11). The new rates apply to capital gains (including installment payments) occurring on or after May 6, 2003. The tax rates for qualified dividends apply to dividends received after December 31, 2002. Schedules K and K-1 have been redesigned to take into account the shareholders' shares of these gains and dividends.
- The instructions for line 23 of Schedule K-1 have been revised to change how dispositions of property are reported if the corporation passed through a section 179 expense deduction to any of its shareholders for the property.
- On page 7, under **Supplemental Information, Line 23**, item 20, 28% rate gain (loss) and item 21, Qualified 5-year gain were added. These items were added due to the deletion of these specific line items from Schedule K-1.

General Instructions

Purpose of Schedule K-1

The corporation uses Schedule K-1 (Form 1120S) to report your pro rata share of the corporation's income (reduced by any tax the corporation paid on the income), credits, deductions, etc. **Keep it for your records. Do not file it with your tax return.** The corporation has filed a copy with the IRS.

Although the corporation may have to pay a built-in gains tax and an excess net passive income tax, you are liable for income tax on your share of the corporation's income, whether or not distributed, and you must include your share on your tax return if a return is required. **Your distributive share of S corporation income is not self-employment income and it is not subject to self-employment tax.**

Where "attach schedule" appears beside a line on Schedule K-1, see either the schedule that the corporation has attached for that line or line 23 of Schedule K-1.

The notation "see instructions for Schedule K-1" in item A at the top of Schedule K-1 is directed to the corporation. You, as a shareholder, should disregard this notation.

Schedule K-1 does not show the amount of actual **dividend** distributions the corporation made to you. The corporation must report to

you such amounts totaling \$10 or more for the calendar year on **Form 1099-DIV**, Dividends and Distributions.

Inconsistent Treatment of Items

Generally, you must report subchapter S items shown on your Schedule K-1 (and any attached schedules) the same way that the corporation treated the items on its return.

If the treatment on your original or amended return is inconsistent with the corporation's treatment, or if the corporation has not filed a return, you must file **Form 8082**, Notice of Inconsistent Treatment or Administrative Adjustment Request (AAR), with your original or amended return to identify and explain any inconsistency (or to note that a corporate return has not been filed).

If you are required to file Form 8082, but fail to do so, you may be subject to the accuracy-related penalty. This penalty is in addition to any tax that results from making your amount or treatment of the item consistent with that shown on the corporation's return. Any deficiency that results from making the amounts consistent may be assessed immediately.

Errors

If you believe the corporation has made an error on your Schedule K-1, notify the corporation and ask for a corrected Schedule K-1. **Do not** change any items on your copy of Schedule K-1. Be sure that the corporation sends a copy of the corrected Schedule K-1 to the IRS. If you are unable to reach agreement with the corporation regarding the inconsistency, you must file Form 8082.

International Boycotts

Every corporation that had operations in, or related to, a boycotting country, company, or national of a country, must file **Form 5713**, International Boycott Report.

If the corporation cooperated with an international boycott, it must give you a copy of its Form 5713. You must file your own Form 5713 to report the corporation's activities and any other boycott operations that you may have. You may lose certain tax benefits if the corporation participated in, or cooperated with, an international boycott. See Form 5713 and the instructions for more information.

Elections

Generally, the corporation decides how to figure taxable income from its operations. For example, it chooses the accounting method and depreciation methods it will use. However, certain elections are made by you separately

on your income tax return and not by the corporation. These elections are made under the following code sections:

- Section 59(e) (deduction of certain qualified expenditures ratably over the period of time specified in that section). For more information, see the instructions for lines 16a and 16b.
- Section 617 (deduction and recapture of certain mining exploration expenditures), and
- Section 901 (foreign tax credit).

If the corporation attaches a statement to Schedule K-1 indicating that it has changed its tax year and that you may elect to report your pro rata share of the income attributable to that change ratably over 4 tax years, see Rev. Proc. 2003-79, 2003-45 I.R.B. 1036 for details on making the election. To make the election, you must file **Form 8082**, Notice of Inconsistent Treatment or Administrative Adjustment Request, with your income tax return for each of the 4 tax years. File Form 8082 for this purpose in accordance with Rev. Proc. 2003-79 instead of the Form 8082 instructions.

Additional Information

For more information on the treatment of S corporation income, credits, deductions, etc., see **Pub. 535**, Business Expenses; **Pub. 550**, Investment Income and Expenses; and **Pub. 925**, Passive Activity and At-Risk Rules.

To get forms and publications, see the instructions for your tax return.

Limitations on Losses, Deductions, and Credits

There are three separate potential limitations on the amount of losses passed to the shareholder that you may deduct on your return. These limitations and the order in which you must apply them are as follows: the basis rules, the at-risk limitations, and the passive activity limitations. Each of these limitations is discussed separately below.

Other limitations may apply to specific deductions (for example, the section 179 expense deduction). Generally, these limitations apply before the basis, at-risk, and passive limitations.

Basis Rules

Generally, the deduction for your share of aggregate losses and deductions reported on Schedule K-1 is limited to the basis of your stock (determined with regard to distributions received during the tax year) and debt owed to you by the corporation. The basis of your stock is figured at year-end.

You are responsible for maintaining records to show the computation of the basis of your

stock in the corporation. Schedule K-1 provides information to help you make the computation at the end of each corporate tax year. The basis of your stock (generally, its cost) is adjusted as follows and, except as noted, in the order listed. In addition, basis may be adjusted under other provisions of the Internal Revenue Code.

1. Basis is increased by (a) all income (including tax-exempt income) reported on Schedule K-1 and (b) the excess of the deduction for depletion (other than oil and gas depletion) over the basis of the property subject to depletion.

You must report the taxable income on your return (if you are required to file one) for it to increase your basis.

Basis is **not** increased by income from discharge of your indebtedness in the S corporation.

2. Basis is decreased by property distributions (including cash) made by the corporation (excluding dividend distributions reported on Form 1099-DIV and distributions in excess of basis) reported on Schedule K-1, line 20.

3. Basis is decreased by (a) nondeductible expenses and (b) the depletion deduction for any oil and gas property held by the corporation, but only to the extent your pro rata share of the property's adjusted basis exceeds that deduction.

4. Basis is decreased by all deductible losses and deductions reported on Schedule K-1.

You may elect to decrease your basis under 4 above prior to decreasing your basis under 3 above. If you make this election, any amount described under 3 that exceeds the basis of your stock and debt owed to you by the corporation is treated as an amount described under 3 for the following tax year. To make the election, attach a statement to your timely filed original or amended return that states you agree to the carryover rule of Regulations section 1.1367-1(f) and the name of the S corporation to which the rule applies. Once made, the election applies to the year for which it is made and all future tax years for that S corporation, unless the IRS agrees to revoke your election.

The basis of each share of stock is increased or decreased (but not below zero) based on its pro rata share of the above adjustments. If the total decreases in basis attributable to a share exceed that share's basis, the excess reduces (but not below zero) the remaining bases of all other shares of stock in proportion to the remaining basis of each of those shares.

The basis of loans to the corporation is the balance the corporation now owes you, less any reduction for losses in a prior year. See the instructions for line 21. Any loss not allowed for the tax year because of this limitation is available for indefinite carryover, limited to the basis of your stock and debt, in each subsequent tax year. See section 1366(d) for details.

When determining your basis in loans to the corporation, remember that:

- Distributions do not reduce loan basis.
- Loans that a shareholder guarantees or co-makes are not part of a shareholder's loan basis.

At-Risk Limitations

Generally, you will have to complete Form 6198, At-Risk Limitations, to figure your allowable loss, if you have:

1. A loss or other deduction from any activity carried on by the corporation as a trade or business or for the production of income, and
2. Amounts in the activity for which you are not at risk.

The at-risk rules generally limit the amount of loss and other deductions that you can claim to the amount you could actually lose in the activity. These losses and deductions include a loss on the disposition of assets and the section 179 expense deduction. However, if you acquired your stock before 1987, the at-risk rules do not apply to losses from an activity of holding real property placed in service before 1987 by the corporation. The activity of holding mineral property does not qualify for this exception. The corporation should identify on an attachment to Schedule K-1 the amount of any losses that are not subject to the at-risk limitations.

Generally, you are not at risk for amounts such as the following:

- The basis of your stock in the corporation or basis of your loans to the corporation if the cash or other property used to purchase the stock or make the loans was from a source (a) covered by nonrecourse indebtedness (except for certain qualified nonrecourse financing, as defined in section 465(b)(6)); (b) protected against loss by a guarantee, stop-loss agreement, or other similar arrangement; or (c) that is covered by indebtedness from a person who has an interest in the activity or from a related person to a person (except you) having such an interest, other than a creditor.
- Any cash or property contributed to a corporate activity, or your interest in the corporate activity, that is (a) covered by nonrecourse indebtedness (except for certain qualified nonrecourse financing, as defined in section 465(b)(6)); (b) protected against loss by a guarantee, stop-loss agreement, or other similar arrangement; or (c) that is covered by indebtedness from a person who has an interest in such activity or from a related person to a person (except you) having such an interest, other than a creditor.

Any loss from a section 465 activity not allowed for this tax year will be treated as a deduction allocable to the activity in the next tax year.

To help you complete Form 6198, the corporation should specify on an attachment to Schedule K-1 your share of the total pre-1976 losses from a section 465(c)(1) activity for which there existed a corresponding amount of nonrecourse liability at the end of the year in which the losses occurred. Also, you should get a separate statement of income, expenses, etc., for each activity from the corporation.

Passive Activity Limitations

Section 469 provides rules that limit the deduction of certain losses and credits. These rules apply to shareholders who:

- Are individuals, estates, or trusts and
- Have a passive activity loss or credit for the year.

Generally, passive activities include:

1. Trade or business activities in which you **did not** materially participate and
2. Activities that meet the definition of rental activities under Temporary Regulations section 1.469-1T(e)(3) and Regulations section 1.469-1(e)(3).

Passive activities **do not** include:

1. Trade or business activities in which you materially participated.
2. Rental real estate activities in which you materially participated if you were a "real estate professional" for the tax year. You were a **real**

estate professional only if you met both of the following conditions:

a. More than half of the personal services you performed in trades or businesses were performed in real property trades or businesses in which you materially participated **and**

b. You performed more than 750 hours of services in real property trades or businesses in which you materially participated.

For purposes of this rule, each interest in rental real estate is a separate activity, unless you elect to treat all interests in rental real estate as one activity. For details on making this election, see the Instructions for Schedule E (Form 1040).

If you are married filing jointly, either you or your spouse must separately meet both of the above conditions, without taking into account services performed by the other spouse.

A real property trade or business is any real property development, redevelopment, construction, reconstruction, acquisition, conversion, rental, operation, management, leasing, or brokerage trade or business. Services you performed as an employee are not treated as performed in a real property trade or business unless you owned more than 5% of the stock (or more than 5% of the capital or profits interest) in the employer.

3. The rental of a dwelling unit any shareholder used for personal purposes during the year for more than the **greater of** 14 days or 10% of the number of days that the residence was rented at fair rental value.

4. Activities of trading personal property for the account of owners of interests in the activities.

The corporation will identify separately each activity that may be passive to you. If the corporation had more than one activity, it will report information in the line 23 Supplemental Information space, or attach a statement if more space is needed, that (a) identifies each activity (trade or business activity, rental real estate activity, rental activity other than rental real estate, etc.); (b) specifies the income (loss), deductions, and credits from each activity; and (c) provides other details you may need to determine if an activity loss or credit is subject to the passive activity limitations.

If you have a passive activity loss or credit, see **Form 8582**, Passive Activity Loss Limitations, to figure your allowable passive losses, and **Form 8582-CR**, Passive Activity Credit Limitations, to figure your allowable passive credit. See the instructions for these forms for more information.

Material participation. You must determine if you materially participated (a) in each trade or business activity held through the corporation and (b), if you were a real estate professional (defined above), in each rental real estate activity held through the corporation. **All determinations of material participation are made based on your participation during the corporation's tax year.**

Material participation standards for shareholders who are individuals are listed below. Special rules apply to certain retired or disabled farmers and to the surviving spouses of farmers. See the Instructions for Form 8582 for details.

Individuals. If you are an individual, you materially participate in a trade or business activity only if one or more of the following apply:

1. You participated in the activity for more than 500 hours during the tax year.
2. Your participation in the activity for the tax year constituted substantially all of the

participation in the activity of all individuals (including individuals who are not owners of interests in the activity).

3. You participated in the activity for more than 100 hours during the tax year, and your participation in the activity for the tax year was not less than the participation in the activity of any other individual (including individuals who were not owners of interests in the activity) for the tax year.

4. The activity was a significant participation activity for the tax year, and your aggregate participation in all significant participation activities (including those outside the corporation) during the tax year exceeded 500 hours. A **significant participation activity** is any trade or business activity in which you participated for more than 100 hours during the year and in which you did not materially participate under any of the material participation tests (other than this test 4).

5. You materially participated in the activity for any 5 tax years (whether or not consecutive) during the 10 tax years that immediately precede the tax year.

6. The activity was a personal service activity and you materially participated in the activity for any 3 tax years (whether or not consecutive) preceding the tax year. A **personal service activity** involves the performance of personal services in the fields of health, law, engineering, architecture, accounting, actuarial science, performing arts, consulting, or any other trade or business, in which capital is not a material income-producing factor.

7. Based on all of the facts and circumstances, you participated in the activity on a regular, continuous, and substantial basis during the tax year.

Work counted toward material participation. Generally, any work that you or your spouse does in connection with an activity held through an S corporation (in which you own stock at the time the work is done) is counted toward material participation. However, work in connection with an activity is not counted toward material participation if either of the following applies:

1. The work is not the type of work that owners of the activity would usually do and one of the principal purposes of the work that you or your spouse does is to avoid the passive loss or credit limitations.

2. You do the work in your capacity as an investor and you are not directly involved in the day-to-day operations of the activity. Examples of work done as an investor that would not count toward material participation include:

a. Studying and reviewing financial statements or reports on operations of the activity,

b. Preparing or compiling summaries or analyses of the finances or operations of the activity, and

c. Monitoring the finances or operations of the activity in a nonmanagerial capacity.

Effect of determination. If you determine that you (a) materially participated in a trade or business activity of the corporation or (b) were a real estate professional (defined on page 2), in a rental real estate activity of the corporation, report the income (loss), deductions, and credits from that activity as indicated in either column (c) of Schedule K-1 or the instructions for your tax return.

If you determine that you **did not** materially participate in a trade or business activity of the corporation, or you have income (loss), deductions, or credits from a rental activity of the corporation (other than a rental real estate

activity in which you materially participated, if you were a real estate professional), the amounts from that activity are passive. Report passive income (losses), deductions, and credits as follows:

1. If you have an overall gain (the excess of income over deductions and losses, including any prior year unallowed loss) from a passive activity, report the income, deductions, and losses from the activity as indicated on Schedule K-1 or in these instructions.

2. If you have an overall loss (the excess of deductions and losses, including any prior year unallowed loss, over income) or credits from a passive activity, you must report the income, deductions, losses, and credits from **all** passive activities using the Instructions for Form 8582 or Form 8582-CR, to see if your deductions, losses, and credits are limited under the passive activity rules.

Special allowance for a rental real estate activity. If you **actively participated** in a rental real estate activity, you may be able to deduct up to \$25,000 of the loss from the activity from nonpassive income. This special allowance is an exception to the general rule disallowing losses in excess of income from passive activities. The special allowance is not available if you were married, are filing a separate return for the year, and did not live apart from your spouse at all times during the year.

Only individuals and qualifying estates can actively participate in a rental real estate activity. Estates (other than qualifying estates) and trusts cannot actively participate.

You are not considered to actively participate in a rental real estate activity if, at any time during the tax year, your interest (including your spouse's interest) in the activity was less than 10% (by value) of all interests in the activity.

Active participation is a less stringent requirement than material participation. You may be treated as actively participating if you participated, for example, in making management decisions or arranging for others to provide services (such as repairs) in a significant and bona fide sense. Management decisions that can count as active participation include approving new tenants, deciding on rental terms, approving capital or repair expenditures, and other similar decisions.

An estate is a qualifying estate if the decedent would have satisfied the active participation requirement for the activity for the tax year the decedent died. A qualifying estate is treated as actively participating for tax years ending less than 2 years after the date of the decedent's death.

Modified adjusted gross income limitation. The maximum special allowance that single individuals and married individuals filing a joint return can qualify for is \$25,000. The maximum is \$12,500 for married individuals who file separate returns and who lived apart at all times during the year. The maximum special allowance for which an estate can qualify is \$25,000 reduced by the special allowance for which the surviving spouse qualifies.

If your modified adjusted gross income (defined below) is \$100,000 or less (\$50,000 or less if married filing separately), your loss is deductible up to the amount of the maximum special allowance referred to in the preceding paragraph. If your modified adjusted gross income is more than \$100,000 (more than \$50,000 if married filing separately), the special allowance is limited to 50% of the difference between \$150,000 (\$75,000 if married filing

separately) and your modified adjusted gross income. When modified adjusted gross income is \$150,000 or more (\$75,000 or more if married filing separately), there is no special allowance.

Modified adjusted gross income is your adjusted gross income figured without taking into account:

- Any passive activity loss.
- Any rental real estate loss allowed under section 469(c)(7) to real estate professionals (as defined on page 2).
- Any taxable social security or equivalent railroad retirement benefits.
- Any deductible contributions to an IRA or certain other qualified retirement plans under section 219.
- The student loan interest deduction.
- The tuition and fees deduction.
- The deduction for one-half of self-employment taxes.
- The exclusion from income of interest from Series EE or I U.S. Savings Bonds used to pay higher education expenses.
- The exclusion of amounts received under an employer's adoption assistance program.

Commercial revitalization deduction.

The special \$25,000 allowance for the commercial revitalization deduction from rental real estate activities is not subject to the active participation rules or modified adjusted gross income limits discussed above. See item 23 of the Supplemental Information instructions on pages 7 and 8.

Special rules for certain other activities. If you have net income (loss), deductions, or credits from any activity to which special rules apply, the corporation will identify the activity and all amounts relating to it on Schedule K-1 or on an attachment.

If you have net income subject to recharacterization under Temporary Regulations section 1.469-2T(f) and Regulations section 1.469-2(f), report such amounts according to the Instructions for Form 8582.

If you have net income (loss), deductions, or credits from either of the following activities, treat such amounts as nonpassive and report them as instructed in column (c) of Schedule K-1 or in these instructions:

1. The rental of a dwelling unit any shareholder used for personal purposes during the year for more than the greater of 14 days or 10% of the number of days that the residence was rented at fair rental value.

2. Trading personal property for the account of owners of interests in the activity.

Self-charged interest. The corporation will report any "self-charged" interest income or expense that resulted from loans between you and the corporation (or between the corporation and other S corporation or partnership in which you have an interest). If there was more than one activity, the corporation will provide a statement allocating the interest income or expense with respect to each activity. The self-charged interest rules do not apply to your interest in the S corporation if the corporation made an election under Regulations section 1.469-7(g) to avoid the application of these rules. See the Instructions for Form 8582 for more information.

Specific Instructions

Item C

If the corporation is a registration-required tax shelter or has invested in a registration-required tax shelter, it should have

completed Item C. If you claim or report any income, loss, deduction, or credit from a tax shelter, you are required to attach **Form 8271**, Investor Reporting of Tax Shelter Registration Number, to your tax return. If the corporation has invested in a tax shelter, it must give you a copy of its Form 8271 with your Schedule K-1. Use this information to complete your Form 8271.

If the corporation itself is a registration-required tax shelter, use the information on Schedule K-1 (name of corporation, corporation identifying number, and tax shelter registration number) to complete your Form 8271.

Lines 1 Through 23

The amounts on lines 1 through 23 show your share of ordinary income, loss, deductions, credits, and other information from all corporate activities. These amounts do not take into account limitations on losses, credits, or other items that may have to be adjusted because of:

1. The adjusted basis of your stock and debt in the corporation,
2. The at-risk limitations,
3. The passive activity limitations, or
4. Any other limitations that must be taken into account at the shareholder level in figuring taxable income (e.g., the section 179 expense limitation).

For information on the limitations of **1, 2,** and **3**, see **Limitations on Losses, Deductions, and Credits** beginning on page 1. The limitations for **4** are discussed throughout these instructions and in other referenced forms and instructions.

If you are an individual, and your pro rata share items are not affected by any of the limitations, report the amounts shown in column (b) of Schedule K-1 as indicated in column (c). If any of the limitations apply, adjust the column (b) amounts for the limitations before you enter the amounts on your return. When applicable, the passive activity limitations on losses are applied after the limitations on losses for a shareholder's basis in stock and debt and the shareholder's at-risk amount.

Note: *The line number references in column (c) are to forms in use for tax years beginning in 2003. If you are a calendar year shareholder in a fiscal year 2003–2004 corporation, enter these amounts on the corresponding lines of the tax form in use for 2004.*

CAUTION *If you have losses, deductions, credits, etc., from a prior year that were not deductible or usable because of certain limitations, such as the basis rules or the at-risk limitations, take them into account in determining your income, loss, etc., for this year. However, except for passive activity losses and credits, do not combine the prior-year amounts with any amounts shown on this Schedule K-1 to get a net figure to report on your return. Instead, report the amounts on your return on a year-by-year basis.*

Income

Line 1—Ordinary Income (Loss) From Trade or Business Activities

The amount reported on line 1 is your share of the ordinary income (loss) from trade or business activities of the corporation. Generally, where you report this amount on Form 1040 depends on whether the amount is from an activity that is a passive activity to you. If you are an individual shareholder, find your

situation below and report your line 1 income (loss) as instructed after applying the basis and at-risk limitations on losses.

1. Report line 1 income (loss) from trade or business activities in which you materially participated on Schedule E (Form 1040), Part II, column (h) or (j).

2. Report line 1 income (loss) from trade or business activities in which you did not materially participate, as follows:

a. If income is reported on line 1, report the income on Schedule E, Part II, column (g).

b. If a loss is reported on line 1, follow the Instructions for Form 8582 to determine how much of the loss can be reported on Schedule E, Part II, column (f).

Line 2—Net Income (Loss) From Rental Real Estate Activities

Generally, the income (loss) reported on line 2 is a passive activity amount for all shareholders. However, the income (loss) on line 2 is not from a passive activity if you were a real estate professional (defined on page 2) and you materially participated in the activity.

If you are filing a 2003 Form 1040, use the following instructions to determine where to enter a line 2 amount:

1. If you have a loss from a passive activity on line 2 and you meet **all** of the following conditions, enter the loss on Schedule E (Form 1040), Part II, column (f):

a. You actively participated in the corporate rental real estate activities. (See **Special allowance for a rental real estate activity** on page 3.)

b. Rental real estate activities with active participation were your only passive activities.

c. You have no prior year unallowed losses from these activities.

d. Your total loss from the rental real estate activities was not more than \$25,000 (not more than \$12,500 if married filing separately and you lived apart from your spouse all year).

e. If you are a married person filing separately, you lived apart from your spouse all year.

f. You have no current or prior year unallowed credits from a passive activity.

g. Your modified adjusted gross income was not more than \$100,000 (not more than \$50,000 if married filing separately and you lived apart from your spouse all year).

2. If you have a loss from a passive activity on line 2 and you **do not** meet all of the conditions in **1** above, follow the Instructions for Form 8582 to determine how much of the loss can be reported on Schedule E (Form 1040), Part II, column (f).

3. If you were a real estate professional and you materially participated in the activity, report line 2 income (loss) on Schedule E, Part II, column (h) or (j).

4. If you have income from a passive activity on line 2, enter the income on Schedule E, Part II, column (g).

Line 3—Net Income (Loss) From Other Rental Activities

The amount on line 3 is a passive activity amount for all shareholders. Report the income or loss as follows:

1. If line 3 is a loss, report the loss using the Instructions for Form 8582.

2. If income is reported on line 3, report the income on Schedule E (Form 1040), Part II, column (h).

Lines 4a Through 4f—Portfolio Income (Loss)

Portfolio income or loss is not subject to the passive activity limitations. Portfolio income includes income not derived in the ordinary course of a trade or business from interest, ordinary dividends, annuities, or royalties, and gain or loss on the sale of property that produces such income or is held for investment.

Column (c) of Schedule K-1 tells shareholders where to report this income on Form 1040 and related schedules.

Qualified dividends. Report any qualified dividends on line 9b of Form 1040.

Note: *Qualified dividends are excluded from investment income, but you may elect to include part or all of these amounts in investment income. See the instructions for line 4g of Form 4952, Investment Interest Expense Deduction, for important information on making this election.*

Line 4f of Schedule K-1 is used to report income other than that reported on lines 4a through 4e. The type and the amount of income reported on line 4f will be listed in the line 23 Supplemental Information space of Schedule K-1.

If the corporation held a residual interest in a real estate mortgage investment conduit (REMIC), it will report on line 4f your share of REMIC taxable income or (net loss) that you report on Schedule E (Form 1040), Part IV, column (d). It will also report your share of any "excess inclusion" that you report on Schedule E, Part IV, column (c), and your share of section 212 expenses that you report on Schedule E, Part IV, column (e). If you itemize your deductions on Schedule A (Form 1040), you may also deduct these section 212 expenses as a miscellaneous itemized deduction subject to the 2% limit on Schedule A, line 22.

Lines 5a and 5b—Net Section 1231 Gain (Loss) (Other Than Due to Casualty or Theft)

The amount on line 5a or 5b is generally a passive activity amount if it is from a:

- Rental activity or
- Trade or business activity in which you did not materially participate.

However, an amount on line 5a or 5b from a rental real estate activity is not from a passive activity if you were a real estate professional (defined on page 2) and you materially participated in the activity.

If the amount on line 5b is either **(a)** a loss that is **not** from a passive activity or **(b)** a gain, report it on Form 4797, line 2, column (g). If any portion of the net section 1231 gain (loss) was generated after May 5, 2003, it will be reported on line 5a. Report this amount on line 2, column (h), of Form 4797. **Do not** complete columns (b) through (f) on line 2. Instead, write "From Schedule K-1 (Form 1120S)" across these columns.

If the amount on line 5a or 5b is a loss from a passive activity, see **Passive Loss Limitations** in the Instructions for Form 4797. You will need to report the loss following the Instructions for Form 8582 to determine the amount to enter on Form 4797.

Any amount of gain from section 1231 property held more than 5 years prior to May 6, 2003, will be indicated on an attachment to Schedule K-1. Include this amount in your computation of qualified 5-year gain **only** if the amount on line 7 of your **Form 4797**, Sales of Business Property, is more than zero. The corporation will also identify in the line 23

Supplemental Information space the activity to which the amounts on lines 5a and 5b relate.

Line 6—Other Income (Loss)

Amounts on this line are other items of income, gain, or loss not included on lines 1 through 5. The corporation should give you a description and the amount of your share for each of these items.

Report loss items that are passive activity amounts to you using the Instructions for Form 8582.

Report income or gain items that are passive activity amounts to you as instructed below.

The instructions below also tell you where to report line 6 items if such items are **not** passive activity amounts.

Line 6 items include the following:

- Income from recoveries of tax benefit items. A tax benefit item is an amount you deducted in a prior tax year that reduced your income tax. Report this amount on Form 1040, line 21, to the extent it reduced your tax.
- Gambling gains and losses.

1. If the corporation was not engaged in the trade or business of gambling:

a. Report gambling winnings on Form 1040, line 21.

b. Deduct gambling losses to the extent of winnings on Schedule A, line 27.

2. If the corporation was engaged in the trade or business of gambling:

a. Report gambling winnings in Part II of Schedule E.

b. Deduct gambling losses to the extent of winnings in Part II of Schedule E.

- Net gain (loss) from involuntary conversions due to casualty or theft. The corporation will give you a schedule that shows the amounts to be reported on **Form 4684**, Casualties and Thefts, line 34, columns (b)(i), (b)(ii), and (c).
- Net short-term capital gain or loss, net long-term capital gain or loss, and the 28% rate gain or loss from Schedule D (Form 1120S) that is **not** portfolio income (e.g., gain or loss from the disposition of nondepreciable personal property used in a trade or business activity of the corporation). Report total net short-term gain or loss on Schedule D (Form 1040), line 5, column (f) and the Post-May 5, 2003, net short-term gain or loss on Schedule D (Form 1040), line 5, column (g). Report the total net long-term gain or loss on Schedule D (Form 1040), line 12, column (f), and the Post-May 5, 2003, net long-term gain or loss on Schedule D (Form 1040), line 12, column (g).

Any amount of 28% rate gain or loss from collectibles will be indicated on an attachment to Schedule K-1. See **Supplemental Information, Line 23**, item 20, for more information. Include this amount on line 4 of the worksheet for line 20 of Schedule D (Form 1040).

Any amount of long-term capital gain from such property held more than 5 years prior to May 6, 2003, will be indicated on an attachment to Schedule K-1. Include this amount on line 5 of the worksheet for line 35 of Schedule D (Form 1040). See item 21 of the instructions for line 23.

- Any net gain or loss from section 1256 contracts. Report this amount on line 1 of **Form 6781**, Gains and Losses From Section 1256 Contracts and Straddles.
- Gain from the sale or exchange of qualified small business stock (as defined in the Instructions for Schedule D) that is eligible for the 50% section 1202 exclusion. The corporation should also give you the name of the corporation that issued the stock, your

share of the corporation's adjusted basis and sales price of the stock, and the dates the stock was bought and sold. Corporate shareholders are not eligible for the section 1202 exclusion. The following additional limitations apply at the shareholder level:

1. You must have held an interest in the corporation when the corporation acquired the qualified small business stock and at all times thereafter until the corporation disposed of the qualified small business stock.

2. Your pro rata share of the eligible section 1202 gain cannot exceed the amount that would have been allocated to you based on your interest in the corporation at the time the stock was acquired.

See the Instructions for Schedule D (Form 1040) for details on how to report the gain and the amount of the allowable exclusion.

- Gain eligible for section 1045 rollover (replacement stock purchased by the corporation). The corporation should also give you the name of the corporation that issued the stock, your share of the corporation's adjusted basis and sales price of the stock, and the dates the stock was bought and sold. Corporate shareholders are not eligible for the section 1045 rollover. To qualify for the section 1045 rollover:

1. You must have held an interest in the corporation during the entire period in which the corporation held the qualified small business stock (more than 6 months prior to the sale) and

2. Your pro rata share of the gain eligible for the section 1045 rollover cannot exceed the amount that would have been allocated to you based on your interest in the corporation at the time the stock was acquired.

See the Instructions for Schedule D (Form 1040) for details on how to report the gain and the amount of the allowable postponed gain.

- Gain eligible for section 1045 rollover (replacement stock not purchased by the corporation). The corporation should also give you the name of the corporation that issued the stock, your share of the corporation's adjusted basis and sales price of the stock, and the dates the stock was bought and sold. Corporate shareholders are not eligible for the section 1045 rollover. To qualify for the section 1045 rollover:

1. You must have held an interest in the corporation during the entire period in which the corporation held the qualified small business stock (more than 6 months prior to the sale).

2. Your pro rata share of the gain eligible for the section 1045 rollover cannot exceed the amount that would have been allocated to you based on your interest in the corporation at the time the stock was acquired, and

3. You must purchase other qualified small business stock (as defined in the Instructions for Schedule D (Form 1040)) during the 60-day period that began on the date the stock was sold by the corporation.

See the Instructions for Schedule D (Form 1040) for details on how to report the gain and the amount of the allowable postponed gain.

Deductions

Line 7—Charitable Contributions

The corporation will give you a schedule that shows the amount of contributions subject to the 50%, 30%, and 20% limitations. For more details, see the instructions for Schedule A (Form 1040).

If property other than cash is contributed, and the claimed deduction for one item or group of similar items of property exceeds \$5,000, the corporation is required to give you

a copy of **Form 8283**, Noncash Charitable Contributions, and you must attach it to your tax return. **Do not** deduct the amount shown on Form 8283. It is the corporation's contribution. You should deduct the amount shown on your Schedule K-1, line 7.

If the corporation provides you with information that the contribution was property other than cash and does not give you a Form 8283, see the Instructions for Form 8283 for filing requirements. Do not file Form 8283 unless the total claimed deduction of all contributed items of property exceeds \$500.

Charitable contribution deductions are not taken into account in figuring your passive activity loss for the year. Do not enter them on Form 8582.

Line 8—Section 179 Expense Deduction

The corporation will identify your share of the section 179 expense deduction and the activity associated with it. Use this amount, along with the total cost of section 179 property placed in service during the year from other sources, to complete Part I of **Form 4562**, Depreciation and Amortization. Use Part I of Form 4562 to figure your allowable section 179 expense deduction from all sources. Report the amount on line 12 of Form 4562 allocable to a passive activity from the corporation using the Instructions for Form 8582. If the amount is not a passive activity deduction, report it on Schedule E (Form 1040), Part II, column (i).

Line 9—Deductions Related to Portfolio Income

Amounts on this line are deductions that are clearly and directly allocable to portfolio income reported on lines 4a through 4f (other than investment interest expense and section 212 expenses from a REMIC). Generally, you should enter line 9 amounts on Schedule A (Form 1040), line 22. See the instructions for Schedule A, lines 22 and 27, for more information.

These deductions are not taken into account in figuring your passive activity loss for the year. Do not enter them on Form 8582.

Line 10—Other Deductions

Amounts on this line are other deductions not included on lines 7, 8, 9, 15g, and 16a, such as:

- Itemized deductions that Form 1040 filers enter on Schedule A (Form 1040).

Note: *If there was a gain (loss) from a casualty or theft to property not used in a trade or business or for income-producing purposes, the corporation will notify you. You will have to complete your own Form 4684.*

- Any penalty on early withdrawal of savings.
- Soil and water conservation expenditures. See section 175 for limitations on the amount you are allowed to deduct.
- Expenditures for the removal of architectural and transportation barriers to the elderly and disabled that the corporation elected to treat as a current expense. The deductions are limited by section 190(c) to \$15,000 per year from all sources.
- Interest expense allocated to debt-financed distributions. The manner in which you report such interest expense depends on your use of the distributed debt proceeds. See Notice 89-35, 1989-1 C.B. 675, for details.
- Contributions to a capital construction fund (CCF). The deduction for a CCF investment is not taken on Schedule E (Form 1040). Instead, you subtract the deduction from the amount that would normally be entered as taxable income on line 40 (Form 1040). In the margin

to the left of line 40, write “CCF” and the amount of the deduction.

If the corporation has more than one corporate activity (line 1, 2, or 3 of Schedule K-1), it will identify the activity to which the expenses relate.

The corporation should also give you a description and your share of each of the expense items. Associate any passive activity deduction included on line 10 with the line 1, 2, or 3 activity to which it relates and report the deduction using the Instructions for Form 8582 (or only on Schedule E (Form 1040), if applicable).

Investment Interest

If the corporation paid or accrued interest on debts properly allocable to investment property, the amount of interest you are allowed to deduct may be limited.

For more information on the special provisions that apply to investment interest expense, see **Form 4952**, Investment Interest Expense Deduction, and **Pub. 550**, Investment Income and Expenses.

Line 11a—Interest Expense on Investment Debts

Enter this amount on Form 4952, line 1, along with investment interest expense from Schedule K-1, line 10, if any, and from other sources to determine how much of your total investment interest is deductible.

Lines 11b(1) and (2)—Investment Income and Investment Expenses

Use the amounts on these lines to determine the amounts to enter in Part II of Form 4952.

The amounts shown on lines 11b(1) and 11b(2) include only investment income and expenses reported on lines 4a, 4b(2), 4c, 4f, and 9 of this Schedule K-1. If applicable, the corporation will have listed in the line 23 Supplemental Information space any other items of investment income and expenses reported elsewhere on this Schedule K-1. Be sure to take these amounts into account, along with the amounts on lines 11b(1) and 11b(2) and your investment income and expenses from other sources, when figuring the amounts to enter in Part II of Form 4952.

Credits

If you have credits that are passive activity credits to you, you must complete Form 8582-CR in addition to the credit forms identified below. See the Instructions for Form 8582-CR for more information.

*Also, if you are entitled to claim more than one listed general business credit (investment credit, work opportunity credit, welfare-to-work credit, credit for alcohol used as fuel, research credit, low-income housing credit, enhanced oil recovery credit, disabled access credit, renewable electricity production credit, Indian employment credit, credit for employer social security and Medicare taxes paid on certain employee tips, orphan drug credit, new markets credit, credit for small employer pension plan startup costs, credit for employer-provided child care facilities and services, and credit for contributions to selected community development corporations), you must complete **Form 3800**, General Business Credit, in addition to the credit forms identified. If you have more than one credit, see the Instructions for Form 3800.*

Line 12a—Credit for Alcohol Used as Fuel

Your share of the corporation's credit for alcohol used as fuel from all trade or business activities is reported on line 12a. Enter this credit on **Form 6478**, Credit for Alcohol Used as Fuel, to determine your allowed credit for the year.

Line 12b—Low-Income Housing Credit

Your share of the corporation's low-income housing credit is shown on lines 12b(1) and 12b(2). Use **Form 8586**, Low-Income Housing Credit, to determine your allowed credit for the year.

If the corporation invested in a partnership to which the provisions of section 42(j)(5) apply, it will report separately on line 12b(1) your share of the credit it received from the partnership.

Your share of all other low-income housing credits of the corporation is reported on line 12b(2). You must keep a separate record of the amount of low-income housing credit from these lines so that you will be able to correctly figure any recapture of the credit that may result from the disposition of all or part of your stock in the corporation. For more information, see the instructions for **Form 8611**, Recapture of Low-Income Housing Credit.

Line 12c—Qualified Rehabilitation Expenditures Related to Rental Real Estate Activities

The corporation should identify your share of rehabilitation expenditures from each rental real estate activity. Enter the expenditures on the appropriate line of **Form 3468**, Investment Credit, to figure your allowable credit.

Line 12d—Credits (Other Than Credits Shown on Lines 12b and 12c) Related to Rental Real Estate Activities

The corporation will identify the type of credit and any other information you need to figure credits from rental real estate activities (other than the low-income housing credit and qualified rehabilitation expenditures).

Line 12e—Credits Related to Other Rental Activities

If applicable, your share of any credit from other rental activities will be reported on line 12e. Income or loss from these activities is reported on line 3 of Schedule K-1. If more than one credit is involved, the credits will be listed separately, each credit identified as a line 12e credit, and the activity to which the credit relates will be identified. This information will be shown on the line 23 Supplemental Information space. The credit may be limited by the passive activity limitations.

Line 13—Other Credits

If applicable, your pro rata share of any other credit (other than on lines 12a through 12e) will be shown on line 13. If more than one credit is reported, the credits will be shown and identified in the line 23 Supplemental Information space. Expenditures qualifying for the (a) rehabilitation credit from other than rental real estate activities, (b) energy credit, or (c) reforestation credit will be reported to you on line 23.

Line 13 credits include the following:

- Credit for backup withholding on dividends, interest income, and other types of income. Include the amount the corporation reports to you in the total that you enter on Form 1040, line 61.
- Nonconventional source fuel credit. Enter this credit on a schedule you prepare yourself to determine the allowed credit to take on your

tax return. See section 29 for rules on how to figure the credit.

- Qualified electric vehicle credit (Form 8834).
- Unused credits from cooperatives.
- Work opportunity credit (Form 5884).
- Welfare-to-work credit (Form 8861).
- Credit for increasing research activities (Form 6765).
- Enhanced oil recovery credit (Form 8830).
- Disabled access credit (Form 8826).
- Renewable electricity production credit (Form 8835).
- Empowerment zone and renewable community employment credit (Form 8844).
- Indian employment credit (Form 8845).
- Credit for employer social security and Medicare taxes paid on certain employee tips (Form 8846).
- Orphan drug credit (Form 8820).
- New markets credit (Form 8874).
- Credit for small employer pension plan startup costs (Form 8881).
- Credit for employer-provided child care facilities and services (Form 8882).
- New York Liberty Zone business employee credit (Form 8884).
- Credit for contributions to selected community development corporations (Form 8847).
- General credits from an electing large partnership. Report these credits on Form 3800, line 1r.
- Qualified zone academy bond credit (Form 8860).

Adjustments and Tax Preference Items

Use the information reported on lines 14a through 14e (as well as adjustments and tax preference items from other sources) to prepare your **Form 6251**, Alternative Minimum Tax—Individuals, or Schedule I of **Form 1041**, U.S. Income Tax Return for Estates and Trusts.

Lines 14d(1) and 14d(2)—Gross Income From, and Deductions Allocable to, Oil, Gas, and Geothermal Properties

The amounts reported on these lines include only the gross income from, and deductions allocable to, oil, gas, and geothermal properties included on line 1 of Schedule K-1. The corporation should have reported separately any income from or deductions allocable to such properties that are included on lines 2 through 10. This separate information is reported in the line 23 Supplemental Information space. Use the amounts reported on lines 14d(1) and 14d(2) and any amounts reported separately to help you determine the net amount to enter on line 25 of Form 6251.

Line 14e—Other Adjustments and Tax Preference Items

Enter the line 14e adjustments and tax preference items shown in the line 23 Supplemental Information space, with other items from other sources, on the applicable lines of Form 6251.

Foreign Taxes

Use the information on lines 15a through 15h and attached schedules to figure your foreign tax credit. For more information, see **Form 1116**, Foreign Tax Credit (Individual, Estate, Trust, or Nonresident Alien Individual), and its instructions. Also see **Pub. 514**, Foreign Tax Credit for Individuals.

Other

Lines 16a and 16b—Section 59(e)(2) Expenditures

The corporation will show on line 16a the type of qualified expenditures to which an election under section 59(e) may apply. It will identify the amount of the expenditures on line 16b. If there is more than one type of expenditure, the amount of each type will be listed on an attachment.

Generally, section 59(e) allows each shareholder to elect to deduct certain expenses ratably over the number of years in the applicable period rather than deduct the full amount in the current year. Under the election, you may deduct circulation expenditures ratably over a 3-year period. Research and experimental expenditures and mining exploration and development costs qualify for a writeoff period of 10 years. Intangible drilling and development costs may be deducted over a 60-month period, beginning with the month in which such costs were paid or incurred.

If you make this election, these items are not treated as adjustments or tax preference items for purposes of the alternative minimum tax. Make the election on Form 4562.

Because each shareholder decides whether to make the election under section 59(e), the corporation cannot provide you with the amount of the adjustment or tax preference item related to the expenses listed on line 16a. You must decide both how to claim the expenses on your return and how to figure the resulting adjustment or tax preference item.

Line 17—Tax-Exempt Interest Income

You must report on your return, as an item of information, your share of the tax-exempt interest received or accrued by the corporation during the year. Individual shareholders must include this amount on Form 1040, line 8b. Generally, you must increase the basis of your stock by this amount.

Line 18—Other Tax-Exempt Income

Generally, you must increase the basis of your stock by the amount shown on line 18, but do not include it in income on your tax return.

Line 19—Nondeductible Expenses

The nondeductible expenses paid or incurred by the corporation are not deductible on your tax return. Generally, you must decrease the basis of your stock by this amount.

Line 20

Reduce the basis of your stock (as explained on page 2) by the distributions on line 20. If these distributions exceed the basis of your stock, the excess is treated as gain from the sale or exchange of property and is reported on Schedule D (Form 1040).

Line 21

If the line 21 payments are made on a loan with a reduced basis, the repayments must be allocated in part to a return of your basis in the loan and in part to the receipt of income. See Regulations section 1.1367-2 for information on reduction in basis of a loan and restoration in basis of a loan with a reduced basis. See Rev. Rul. 64-162, 1964-1 (Part 1) C.B. 304 and Rev. Rul. 68-537, 1968-2 C.B. 372, for other information.

Lines 22a and 22b—Recapture of Low-Income Housing Credit

The corporation will report on line 22a your share of any recapture of a low-income housing credit from its investment in partnerships to which the provisions of section 42(j)(5) apply. All other recapture of

low-income housing credits will be reported on line 22b. Keep a separate record of recapture from line 22a and 22b so that you will be able to correctly figure any credit recapture that may result from the disposition of all or part of your corporate stock. For more information, see Form 8611.

Supplemental Information

Line 23

Amounts shown on line 23 include:

1. Taxes paid on undistributed capital gains by a regulated investment company or real estate investment trust. Form 1040 filers, enter your share of these taxes on line 67 of Form 1040, check the box for Form 2439, and add "Form 1120S." Also reduce the basis of your stock by this tax.

2. Your share of gross income from the property, share of production for the tax year, etc., needed to figure your depletion deduction for oil and gas wells. The corporation should also allocate to you a proportionate share of the adjusted basis of each corporate oil or gas property. See Pub. 535 on how to figure your depletion deduction. Also, reduce the basis of your stock by the amount of this deduction to the extent the deduction does not exceed your share of the adjusted basis of the property.

3. Your pro rata share of gain or loss on the sale, exchange, or other disposition of property for which a section 179 expense deduction was passed through to shareholders. If the corporation passed through a section 179 deduction to its shareholders for the property, you must report the gain or loss and any recapture of the section 179 expense deduction for the property on your income tax return (see the instructions for Form 4797 for details). The corporation must provide all the following information with respect to a disposition of property for which a section 179 expense deduction was passed through to shareholders.

- Description of the property.
- Date the property was acquired.
- Date of the sale or other disposition of the property.
- Your pro rata share of the gross sales price.
- Your pro rata share of the cost or other basis plus the expense of sale (reduced as explained in the instructions for Form 4797, line 21).
- Your pro rata share of the depreciation allowed or allowable, determined as described in the instructions for Form 4797, line 22, but excluding the section 179 expense deduction.
- Your pro rata share of the section 179 expense deduction (if any) passed through for the property and the corporation's tax year(s) in which the amount was passed through. To compute the amount of depreciation allowed or allowable for Form 4797, line 22, add to the amount from item f above the amount of your pro rata share of the section 179 expense deduction, reduced by any unused carryover of the deduction for this property. This amount may be different than the amount of section 179 expense you deducted for the property if your interest in the corporation has changed.

h. An indication if the disposition is from a casualty or theft.

i. If this is an installment sale, any information you need to complete Form 6252, Installment Sale Income.

4. Recapture of section 179 expense deduction if business use of any property for which the section 179 expense deduction was passed through to shareholders dropped to 50 percent or less. If the business use of the property dropped to 50 percent or less, the

corporation must provide all the following information.

a. Your pro rata share of the depreciation allowed or allowable (not including the section 179 expense deduction).

b. Your pro rata share of the section 179 expense deduction (if any) passed through for the property and the corporation's tax year(s) in which the amount was passed through.

Reduce this amount by the portion, if any, of your unused (carryover) section 179 expense deduction for this property.

5. Recapture of certain mining exploration expenditures (section 617).

6. Any information or statements you need to comply with section 6111 (registration of tax shelters) or section 6662(d)(2)(B)(ii) (regarding adequate disclosure of items that may cause an understatement of income tax).

7. Gross farming and fishing income. If you are an individual shareholder, enter this income, as an item of information, on Schedule E (Form 1040), Part V, line 42. **Do not** report this income elsewhere on Form 1040.

For a shareholder that is an estate or trust, report this income to the beneficiaries, as an item of information, on Schedule K-1 (Form 1041). **Do not** report it elsewhere on Form 1041.

8. Any information you need to figure the interest due under section 453(l)(3). If the corporation elected to report the dispositions of certain timeshares and residential lots on the installment method, your tax liability must be increased by the interest on tax attributable to your pro rata share of the installment payments received by the corporation during its tax year. If applicable, use the information provided by the corporation to figure your interest, report the interest on Form 1040, line 60. Write "453(l)(3)" and the amount of the interest on the dotted line to the left of line 60.

9. Any information you need to figure the interest due under section 453A(c) with respect to certain installment sales. If you are an individual, report the interest on Form 1040, line 60. Write "453A(c)" and the amount of the interest on the dotted line to the left of line 60. See the instructions for Form 6252, Installment Sale Income, for more information. Also see section 453A(c) for details on making the computation.

10. Capitalization of interest under section 263A(f). To the extent certain production or construction expenditures of the corporation are made from proceeds associated with debt you incur as an owner-shareholder, you must capitalize the interest on this debt. If applicable, use the information on expenditures the corporation gives to you to determine the amount of interest you must capitalize. See Regulations sections 1.263A-8 through 1.263A-15 for more information.

11. Any information you need to figure the interest due or to be refunded under the look-back method of section 460(b)(2) on certain long-term contracts. Use Form 8697, Interest Computation Under the Look-Back Method for Completed Long-Term Contracts, to report any such interest.

12. Your share of expenditures qualifying for the (a) rehabilitation credit from other than rental real estate activities, (b) energy credit, or (c) reforestation credit. Enter the expenditures on the appropriate line of Form 3468 to figure your allowable credit.

13. Investment credit properties subject to recapture. Any information you need to figure your recapture tax on Form 4255, Recapture of Investment Credit. See the Form 3468 on which you took the original credit for other information you need to complete Form 4255.

You may also need Form 4255 if you disposed of more than one-third of your stock in the corporation.

14. Preproductive period farm expenses. You may elect to deduct these expenses currently or capitalize them under section 263A. See **Pub. 225**, Farmer's Tax Guide, and Regulations section 1.263A-4 for more information.

15. Any information you need to figure the recapture of the new markets credit (see Form 8874).

16. Any information you need to figure recapture of the qualified electric vehicle credit. See Pub. 535 for details, including how to figure the recapture.

17. Any information you need to figure your recapture of the Indian employment credit. Generally, if the corporation terminated a qualified employee less than 1 year after the date of initial employment, any Indian employment credit allowed for a prior tax year by reason of wages paid or incurred to that employee must be recaptured. For details, see section 45A(d).

18. Nonqualified withdrawals by the corporation from a capital construction fund (CCF). These withdrawals are taxed separately from your other gross income at the highest marginal ordinary income or capital gain tax rate. Attach a statement to your Federal income tax return to show your computation of both the tax and interest for a nonqualified withdrawal. Include the tax and interest on Form 1040, line 60. To the left of line 60, write the amount of tax and interest and "CCF."

19. Unrecaptured section 1250 gain. Generally, report this amount on line 5 of the **Unrecaptured Section 1250 Gain Worksheet** in the Schedule D (Form 1040) instructions. However, for an amount passed through from an estate, trust, real estate investment trust, or regulated investment company, report it on line 11 of that worksheet. Report on line 10 of that worksheet any gain from the corporation's sale or exchange of a partnership interest that is attributable to unrecaptured section 1250 gain.

20. Your share of any collectibles gain or loss. Include this amount on line 4 of the worksheet for Schedule D (Form 1040), line 20.

21. Any information you need to figure qualified 5-year gain. Include on line 5 of the

worksheet for Schedule D (Form 1040), line 35, qualified 5-year gain from portfolio income. Take into account any qualified 5-year gain from section 1231 property when completing line 2 of that worksheet, as if it were included in Part I of Form 4797 (but only if line 7, column (g), of your Form 4797 is greater than zero).

22. Any information you need to figure the interest due or to be refunded under the look-back method of section 167(g)(2) for certain property placed in service after September 13, 1995, and depreciated under the income forecast method. Use **Form 8866**, Interest Computation Under the Look-Back Method for Property Depreciated Under the Income Forecast Method, to report any such interest.

23. Amortizable basis of reforestation expenditures and the year paid or incurred. To figure your allowable amortization, including limits that may apply, see section 194 and Pub. 535. Follow the Instructions for Form 8582 to report amortization allocable to a passive activity. Report amortization from a trade or business activity in which you materially participated on a separate line in Part II, column (i), of Schedule E (Form 1040).

24. Any information you need to figure the interest due under section 1260(b). If the corporation had gain from certain constructive ownership transactions, your tax liability must be increased by the interest charge on any deferral of gain recognition under section 1260(b). If you are an individual, report the interest on Form 1040, line 60. Write "1260(b)" and the amount of the interest on the dotted line to the left of line 60. See section 1260(b) for details, including how to figure the interest.

25. Extraterritorial income exclusion:

• *Corporation did not claim the exclusion.* If the corporation reports your pro rata share of foreign trading gross receipts and the extraterritorial income exclusion, the corporation was not entitled to claim the exclusion because it did not meet the foreign economic process requirements. You may still qualify for your pro rata share of this exclusion if the corporation's foreign trading gross receipts for the tax year were \$5 million or less. To qualify for this exclusion, your foreign trading gross receipts from all sources for the tax year also must have been \$5 million or

less. If you qualify for the exclusion, report the exclusion amount in accordance with the instructions on page 4 for line 1, 2, or 3, whichever applies. See **Form 8873**, Extraterritorial Income Exclusion, for more information.

• *Corporation claimed the exclusion.* If the corporation reports your pro rata share of foreign trading gross receipts but not the amount of the extraterritorial income exclusion, the corporation met the foreign economic process requirements and claimed the exclusion when figuring your pro rata share of corporate income. You also may need to know the amount of your pro rata share of foreign trading gross receipts from this corporation to determine if you met the \$5 million or less exception discussed above for purposes of qualifying for an extraterritorial income exclusion from other sources.

Note: Upon request, the corporation should furnish you a copy of the corporation's Form 8873 if there is a reduction for international boycott operations, illegal bribes, kickbacks, etc.

26. Commercial revitalization deduction from rental real estate activities. Follow the instructions for Form 8582 to determine how much of this deduction can be reported on Schedule E, Part II, column (f).

27. Any information you need to complete a disclosure statement for reportable transactions in which the corporation participates. If the corporation participates in a transaction that must be disclosed on **Form 8886**, Reportable Transaction Disclosure Statement, both the corporation and its shareholders may be required to file Form 8886 for the transaction. The determination of whether you are required to disclose a transaction of the corporation is based on the category(s) under which the transaction qualifies for disclosure. See the instructions for Form 8886 for details.

28. Any information you need to figure recapture of the credit for employer-provided child care facilities and services (Form 8882).

29. Any other information you may need to file with your individual tax return that is not shown elsewhere on Schedule K-1.
