Introduction

Publication 1438-A (Supplement) (Tax Year 2003)

This publication is a supplement to Publication 1438, and should be used in conjunction with that publication. It contains a list of the forms accepted electronically when filed through the 1041 e-file program, and an exhibit of each form. The exhibit of each form reflects a field number that corresponds with the field number in the Record Layouts found in Publication 1438. The exhibits are helpful in resolving error conditions identified in the Acknowledgement Error Record, and in locating specific fields on a particular form or schedule.

NOTE: At the time this document was prepared, we were aware of the need to change the record layout and form exhibits of two forms; Form 2210 and 8582-CR. Therefore, those two forms are not included in this publication. However, once the record layouts and exhibits for Forms 2210 and 8582-CR have been finalized, we will forward copies of those items to the Trading Partners (Filers) in our Contact database. We will also have the items posted to the IRS Web site at www.irs.gov, at the link for Tax Professionals.

Purpose of Form

Use Form 4255 to figure the increase in tax for the recapture of investment credit claimed.

Who Must Refigure the Investment Credit

Generally, you must refigure the investment credit and may have to recapture all or part of it if any of the following apply.

• You disposed of investment credit property before the end of 5 full years after the property was placed in service (recapture period).

- You changed the use of the property before the end of the recapture period so that it no longer qualifies as investment credit property.
- The business use of the property decreased before the end of the recapture period so that it no longer qualifies (in whole or in part) as investment credit property.
- Any building to which section 47(d) applies will no longer be a qualified rehabilitated building when placed in service.
- Any property to which section 48(a)(5) applies will no longer qualify as investment credit property when placed in service.
- Before the end of the recapture period, your proportionate interest was reduced by more than one-third in a partnership, S corporation, estate, or trust that allocated

the cost or other basis of property to you for which you claimed a credit.

- You returned leased property (on which you claimed a credit) to the lessor before the end of the recapture period.
- A net increase in the amount of nonqualified nonrecourse financing occurred for any property to which section 49(a)(1) applied. For more details, see the instructions for line 10.

Exceptions to recapture. Recapture of the investment credit does not apply to the following.

- A transfer because of the death of the taxpayer.
- A transfer between spouses or incident to divorce under section 1041. However, a later disposition by the transferee is subject to recapture to the same extent as if the transferor had disposed of the property at the later date.

General Instructions A Change To Note

In general, qualified dividends are excluded from investment income. But, you can make an election on Form 4952, line 4g, to include qualified dividends in investment income. See the instructions for line 4g for more details.

Purpose of Form

Use Form 4952 to figure the amount of investment interest expense you can deduct for 2003 and the amount you can carry forward to future years. Your investment interest expense deduction is limited to your net investment income.

For more information, see **Pub. 550**, Investment Income and Expenses.

Who Must File

If you are an individual, estate, or a trust, you must file Form 4952 to claim a deduction for your investment interest expense.

Exception. You do not have to file Form 4952 if **all** of the following apply.

- Your investment interest expense is not more than your investment income from interest and ordinary dividends minus any qualified dividends.
- You have no other deductible investment expenses.
- You have no disallowed investment interest expense from 2002.

Allocation of Interest Expense

If you paid or accrued interest on a loan and used the loan proceeds for more than one purpose, you may have to allocate the interest. This is necessary because different rules apply to investment interest, personal interest, trade or

business interest, home mortgage interest, and passive activity interest. See **Pub. 535**, Business

Specific Instructions Part I—Total Investment Interest Expense

Line 1

Enter the investment interest expense paid or accrued during the tax year, regardless of when you incurred the indebtedness. **Investment interest expense** is interest paid or accrued on a loan or part of a loan that is allocable to property held for investment (as defined on page 2).

General Instructions

Section references are to the Internal Revenue Code.

Purpose of Form

Use Form 8271 to report the tax shelter registration number the IRS assigns to certain tax shelters required to be registered under section 6111 ("registration- required tax shelters") and to report the name and identifying number of the tax shelter. This information must be reported even if the particular interest is producing net income for the filer of Form 8271. Use additional forms to report more than 10 tax shelter registration numbers.

Note: A tax shelter registration number does not indicate that the tax shelter or its claimed tax benefits have been reviewed, examined, or approved by the IRS.

Who Must File

Any person claiming or reporting any deduction, loss, credit, or other tax benefit, or reporting any income on any tax return from an interest purchased or otherwise acquired in a registrationrequired tax shelter must file Form 8271. If you are an investor in a partnership or an S corporation, look at item G. Schedule K-1 (Form 1065), or item C, Schedule K-1 (Form 1120S). If a tax shelter registration number or the words "Applied for" appear there, then the entity is a registration-required tax shelter. If the interest is purchased or otherwise acquired by a pass-through entity, both the pass-through entity and its partners, shareholders, or beneficiaries must file Form 8271.

A pass-through entity that is the registration-required tax shelter does not have to prepare Form 8271 and give copies to its partners, shareholders, or beneficiaries unless the pass-through entity itself has invested in a registration-required tax shelter.

In certain cases, a tax shelter that does not expect to reduce the cumulative tax liability of any investor during the 5-year period ending after the date the investment is first offered for sale may be considered a "projected income investment." Such a tax shelter will not have to register, and thus not have to furnish a tax shelter registration number to investors, unless and until it ceases to be a projected income investment. It is possible, therefore, that you may not be furnished a tax shelter registration number, and not have to report it, for several years after you purchase or otherwise acquire your interest in the tax shelter. If you are later furnished a tax shelter registration number because the tax shelter ceased to be a projected income investment. follow these instructions. However, you must file Form 8271 only for tax years ending on or after the date the tax shelter ceases to be a projected income

Note: Even if you have an interest in a registration-required tax shelter, you do not have to file Form 8271 if you did not claim or report any deduction, loss, credit, or other tax benefit, or report any income on your tax return from an interest in the registration-required tax shelter. This could occur, for example, if for a particular year you are unable to claim any portion of a loss because of the passive activity loss limitations, and that loss is the only tax item reported to you from the shelter.

Filing Form 8271

Attach Form 8271 to any return on which a deduction, loss, credit, or other tax benefit is claimed or reported, or any income reported, from an interest in a registration-required tax shelter. These returns include applications for tentative refunds (Forms 1045 and 1139) and amended returns (Forms 1040X and 1120X).

Furnishing Copies of Form 8271 to Investors

A pass-through entity that has invested in a registration-required tax shelter must furnish copies of its Form 8271 to its partners, shareholders, or beneficiaries.

However, in the case where (a) the pass-through entity acquired at least a 50% interest in one tax year in a registered tax shelter (and in which it had not held an interest in a prior year), and (b) the investment would not meet the definition of a tax shelter immediately following the acquisition if it had been offered for sale at that time, the pass-through entity need not distribute copies of Form 8271 to its investors. The pass-through entity alone is required to prepare Form 8271 and include it with the entity tax return.

Penalty For Not Including Registration Number on Return

A \$250 penalty will be charged for each failure to include a tax shelter registration number on a return on which it is required to be included unless the failure is due to reasonable cause.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Note: Some of the line numbers on the November 2003, December 1988, and March 1991 revisions of Form 8609 differ from other revisions. In these cases, the line references that correspond to the 1988, 1991, or 2003 revisions, if different, are shown in parentheses in these instructions.

Purpose of Schedule

Schedule A (Form 8609) must be filed by the building owner each year of the 15-year compliance period. Any taxpayer claiming credit without receiving a Part I of Form 8609 that is completed, signed, and dated by an authorized official of the housing credit agency may have all credits disallowed.

For a building receiving separate allocations for the existing building and for rehabilitation expenditures, file a separate Schedule A for each credit claimed.

If the owner is a partnership, S corporation, estate, or trust (pass-through entity), the entity will complete and attach Form 8609 and Schedule A to its tax return. If you are a partner, shareholder, or beneficiary in the pass-through entity that owns the building, file only **Form 8586**, Low-Income Housing

Credit, to claim the credit using the information that the entity furnishes you on Schedule K-1.

Recapture of Credit

If the qualified basis of the building has decreased from the qualified basis at the close of the previous tax year, you may have to recapture parts of the credits allowed in previous years. See **Form 8611**, Recapture of Low-Income Housing Credit.

Specific Instructions

Item B. If you are an individual, enter your social security number. All others, enter your employer identification number.

Item C. Enter the building identification number (BIN) from Part I, item E, of Form 8609.

Item D. You must have an original, signed Form 8609 (or copy thereof) issued by a housing credit agency assigning a BIN for the building in order to claim the credit, even if no allocation is required (in the case of a building financed with tax-exempt bonds). If the housing credit agency assigned a BIN and made an allocation but you do not have a copy of the Form 8609 and are eligible to claim the credit, attach an explanation.

Item E. If "No," stop here and see Form 8611 to find out if you have to recapture part of the credit allowed in prior years.

Item F. If "Yes," see the instructions for line 2 to figure the reduced qualified basis. Also, see Form 8611 to find out if you have to recapture part of the credit allowed in prior years.

If "No" and the entire credit has been claimed in prior tax years (generally this can occur after the 11th year for which the credit has been claimed for the building), do not complete lines 1 through 18.

Line 1. Generally, the eligible basis of a building for its entire 15-year compliance period is the amount of eligible basis entered on Form 8609, line 7b (Part II, line 1b, on the 1988 and 1991 revisions); line 7 on the 2003 revision.

Basis increases for buildings in certain high-cost areas. In order to increase the allocated credit for buildings in certain high-cost areas, the housing credit agency may increase the eligible basis of buildings located in these areas (after adjustments, if any, for Federal subsidies and grants). The agency may make this increase under the high-cost-area provisions of section 42(d)(5)(C).

The agency shows the increased percentage of the eligible basis in Part I, line 3b, of Form 8609. The eligible basis entered on Form 8609 should reflect the percentage increase.

If the agency used an earlier revision of Form 8609 that did not have line 3b in Part I to issue a 1990 credit allocation to which the high-cost-area provisions were applied,

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

Use Parts I, II, and III of Form 8824 to report each exchange of business or investment property for property of a like kind. Certain members of the executive branch of the Federal Government use Part IV to elect to defer gain on conflict-of-interest sales.

Multiple exchanges. If you made more than one like-kind exchange, you may file only a summary Form 8824 and attach your own statement showing all the information requested on Form 8824 for each exchange. Include your name and identifying number at the top of each page of the statement. On the summary Form 8824, enter only your name and identifying number, "Summary" on line 1, the total recognized gain from all exchanges on line 23, and the total basis of all like-kind property received on line 25.

When To File

If during the current tax year you transferred property to another party in a like-kind exchange, you must file Form 8824 with your tax return for that year. Also file Form 8824 for the 2 years following the year of a related party exchange (see the instructions for line 7 on page 3).

Like-Kind Exchanges

Generally, if you exchange business or investment property solely for business or investment property of a like kind, no gain or loss is recognized under section 1031. If, as part of the exchange, you also receive other (not like-kind) property or money, gain is recognized to the extent of the other property and money received, but a loss is not recognized.

Section 1031 does not apply to exchanges of inventory, stocks, bonds, notes, other securities or evidence of indebtedness, or certain other assets. See section 1031(a)(2).

Like-kind property. Properties are of like kind if they are of the same nature or

character, even if they differ in grade or quality. Personal properties of a like class are like-kind properties. However, livestock of different sexes are not like-kind properties. Also, personal property used predominantly in the United States and personal property used predominantly outside the United States are not like-kind properties. See **Pub. 544**, Sales and Other Dispositions of Assets, for more details.

Real properties generally are of like kind, regardless of whether they are improved or unimproved. However, real property in the United States and real property outside the United States are **not** like-kind properties.

Deferred exchanges. A deferred exchange occurs when the property **received** in the exchange is not received at the same time as the transfer of the property **given up.** For a deferred exchange to qualify as like-kind, you must comply with the 45-day written notice and receipt requirements explained in the instructions for lines 5 and 6.

Multi-asset exchanges. A multi-asset exchange involves the transfer and receipt of more than one group of like-kind properties. For example, an exchange of

Purpose of Form

Use Form 8830 to claim the enhanced oil recovery credit.

An owner of an operating mineral interest may claim or elect not to claim this credit any time within 3 years from the due date (excluding extensions) of its return on either its original or an amended return. This credit is part of the general business credit.

Amount of Credit

The credit generally is 15% of qualified costs for the year, but is reduced when the reference price per barrel exceeds the base value of \$28 (as adjusted by inflation). For 2003, there is no reduction of the credit.
