# **Publication 1438-A (Supplement)**

# 1041 e-file Program

# **U.S. Income Tax Return for Estates and Trusts**

for Tax Year 2007

The IRS Mission

Provide America's Taxpayers top quality service by helping them understand and meet their tax responsibilities, and by applying the tax law with integrity and fairness to all.

# Introduction

# Publication 1438-A (Supplement) Tax Year 2007

This publication is a supplement to Publication 1438, and should be used in conjunction with that document. It contains a list of the forms accepted electronically when filed through the 1041 e-file program, and an exhibit of each form. The exhibit of each form reflects a field number that corresponds with the field number in the Record Layouts found in Publication 1438. The exhibits are helpful in resolving error conditions identified in the Acknowledgement Error Record, and in locating specific fields on a particular form or schedule.

# DISCLAIMER

**Note:** In an attempt to make this document available to you as soon as possible, we have used draft versions of the various forms and schedules. In some cases, the draft we used is earlier than later published drafts of the forms or schedules. However, if the form or schedule did not change from the earlier draft, we did not replace the earlier draft. In general, the drafts in this publication represent what we believe the forms/schedules will reflect in the final version. In some cases, we have included drafts of forms that reflect changes we expect to be included in the final version. We urge you to compare the drafts in this publication to the latest forms released to the public by the Internal Revenue Service. Also, recent and/or subsequent legislative changes may necessitate a later revision of some forms or schedules.

### Part IV Principal Agricultural Activity Codes

File Schedule C (Form 1040) or Schedule C-EZ (Form 1040) instead of Schedule F if **(a)** your principal source of income is from providing

agricultural services such as soil preparation, veterinary, farm labor, horticultural, or management for a fee or on a contract basis, or **(b)** you are engaged in the business of breeding, raising, and caring for dogs, cats, or other pet animals.

These codes for the Principal Agricultural Activity classify farms by their primary activity to facilitate the administration of the Internal Revenue Code. These six-digit codes are based on the North American Industry Classification System (NAICS).

Select the code that best identifies your primary farming activity and enter the six digit number on page 1, line B.

In most cases, you do not need to file Form 2210-F. The IRS will figure any penalty you owe and send you a bill. File Form 2210-F only if one or both of the boxes in Part I apply to you. If you do not need to file Form 2210-F, you still can use it to figure your penalty. Enter the amount from line 21 on the penalty line of your return but do not attach Form 2210-F.

- Part I Reasons for Filing—If box 1a below applies to you, you may be able to lower or eliminate your penalty. But you must check that box and file Form 2210-F with your tax return. If box 1b below applies to you, check that box and file Form 2210-F with your tax return.
- 1 Check whichever boxes apply (if neither applies, see the text above Part I and **do not file Form 2210-F**):
- **a** You request a **waiver**. In certain circumstances, the IRS will waive all or part of the penalty. See Waiver of Penalty on page 2.
- **b** Your required annual payment (line 16 below) is based on your 2006 tax and you filed, or are filing, a joint return for either 2006 or 2007 but not for both years.

### **General Instructions**

Section references are to the Internal Revenue Code unless otherwise noted.

### **Purpose of Form**

Use Form 4255 to figure the increase in tax for the recapture of investment credit claimed.

# Who Must Refigure the Investment Credit

Generally, you must refigure the investment credit and may have to recapture all or part of it if any of the following apply.

• You disposed of investment credit property before the end of 5 full years after the property was placed in service (recapture period). • You changed the use of the property before the end of the recapture period so that it no longer qualifies as investment credit property.

• The business use of the property decreased before the end of the recapture period so that it no longer qualifies (in whole or in part) as investment credit property.

• Any building to which section 47(d) applies will no longer be a qualified rehabilitated building when placed in service.

• Any property to which section 48(b) applies will no longer qualify as investment credit property when placed in service.

• Before the end of the recapture period, your proportionate interest was reduced by more than one-third in a partnership, S corporation, estate, or trust that allocated the cost or other basis of property to you for which you claimed a credit.

• You returned leased property (on which you claimed a credit) to the lessor before the end of the recapture period.

• A net increase in the amount of nonqualified nonrecourse financing occurred for any property to which section 49(a)(1) applied. For more details, see the instructions for line 10.

**Exceptions to recapture.** Recapture of the investment credit does not apply to the following.

• A transfer because of the death of the taxpayer.

• A transfer between spouses or incident to divorce under section 1041. However, a later disposition by the transferee is subject to recapture to the same extent as

## General Instructions

### Purpose of Form

Use Form 4952 to figure the amount of investment interest expense you can deduct for 2007 and the amount you can carry forward to future years. Your investment interest expense deduction is limited to your net investment income.

For more information, see Pub. 550, Investment Income and Expenses.

### Who Must File

If you are an individual, estate, or a trust, you must file Form 4952 to claim a deduction for your investment interest expense.

Exception. You do not have to file Form 4952 if all of the following apply.

 Your investment income from interest and ordinary dividends minus any qualified dividends is more than your investment interest expense.

• You do not have any other deductible investment expenses.

 You do not have any carryover of disallowed investment interest expense from 2006.

### Allocation of Interest Expense

If you paid or accrued interest on a loan and used the loan proceeds for more than one purpose, you may have to allocate the interest. This is necessary because different

rules apply to investment interest, personal interest, trade or business interest, home mortgage interest, and passive activity interest. See Pub. 535. Business Expenses.

### Specific Instructions Part I—Total Investment Interest Expense

#### Line 1

Enter the investment interest expense paid or accrued during the tax year, regardless of when you incurred the indebtedness. Investment interest expense is interest paid or accrued on a loan or part of a loan that is allocable to property held for investment (as defined on this page).

Include investment interest expense reported to you on Schedule K-1 from a partnership or an S corporation. Include amortization of bond premium on taxable bonds purchased after October 22, 1986, but before January 1, 1988, unless you elected to offset amortizable bond premium against the interest payments on the bond. A taxable bond is a bond on which the interest is includible in gross income.

Investment interest expense does not include any of the following:

Home mortgage interest.

 Interest expense that is properly allocable to a passive activity. Generally, a passive activity is any trade or business activity in which you do not materially participate and any rental activity. See the Instructions for Form 8582, Passive Activity Loss Limitations, for details.

 Any interest expense that is capitalized, such as construction interest subject to section 263A.

 Interest expense related to tax-exempt interest income under section 265.

 Interest expense, disallowed under section 264, on indebtedness with respect to life insurance, endowment, or annuity contracts issued after June 8, 1997, even if the proceeds were used to purchase any property held for investment.

Property held for investment. Property held for investment includes property that produces income, not derived in the ordinary course of a trade or business, from interest, dividends, annuities, or royalties. It also includes property that produces gain or loss, not derived in the ordinary course of a trade or business, from the disposition of property that produces these types of income or is held for investment. However, it does not include an interest in a passive activity.

Exception. A working interest in an oil or gas property that you held directly or through an entity that did not limit your liability is property held for investment, but only if you did not materially participate in the activity.

### Part II—Net Investment Income Line 4a

Gross income from property held for investment includes income, unless derived in the ordinary course of a trade or business, from interest, ordinary dividends (except Alaska Permanent Fund dividends), annuities, and royalties. Include investment income

### What's New

• The tax liability limit is no longer figured on this form; instead, it must be figured on Form 3800, General Business Credit.

• Taxpayers that are not partnerships, S corporations, estates, or trusts, and whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on line 1e of Form 3800.

• The IRS will revise this December 2006 version of the form only when necessary. Continue to use this version for tax years beginning after 2005 until a new revision is issued.

### Purpose of Form

Use Form 8586 to claim the low-income housing credit. This general business credit is allowed for each new qualified low-income building placed in service after 1986. Generally, it is taken over a 10-year credit period.

### **Qualified Low-Income Housing Project**

The credit cannot exceed the amount allocated to the building. See section 42(h)(1) for details.

The low-income housing credit can only be claimed for residential rental buildings in low-income housing projects that meet one of the minimum set-aside tests. For details, see the instructions for Form 8609, Part II, line 10c. Except for buildings financed with certain tax-exempt bonds, you may not take a low-income housing credit on a building if it has not received an allocation from the housing credit agency. No allocation is needed when 50% or more of the aggregate basis of the building and the land on which the building is located is financed with certain tax-exempt bonds issued after 1989 for buildings placed in service after 1989. The owner still must get a Form 8609 from the appropriate housing credit agency (with the applicable items completed, including an assigned BIN). "Land on which the building is located" includes only land that is functionally related and subordinate to the qualified low-income building (see Regulations sections 1.103-8(a)(3) and 1.103-8(b)(4)(iii)).

### **Recapture of Credit**

There is a 15-year compliance period during which the residential rental building must continue to meet certain requirements. If, as of the close of any tax year in this period, there is a reduction in the qualified basis of the building from the previous year, you may have to recapture a part of the credit you have taken. Similarly, you may have to recapture part of the credits taken in previous years upon certain dispositions of the building or interests therein. If you must recapture credits, use Form 8611, Recapture of Low-Income Housing Credit. See section 42(j) for details.

### Recordkeeping

Keep a copy of this Form 8586 together with all Forms 8609, Schedules A (Form 8609) (and successor Forms 8609-A), and Forms 8611 for 3 years after the 15-year compliance period ends.

### General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Note. Some of the line numbers on the December 1988, March 1991, and November 2003 revisions of Form 8609, Low-Income Housing Credit Allocation Certification, and December 2005, December 2006, and December 2007 revisions of Form 8609, Low-Income Housing Credit Allocation and Certification, differ from other revisions. In these cases, the line references are shown in parentheses in these instructions.

### Purpose of Form

Form 8609-A is filed by a building owner to report compliance with the low-income housing provisions and calculate the

low-income housing credit. After 2004, Form 8609-A must be filed by the building owner for each year of the 15-year compliance period. File one Form 8609-A for the allocation(s) for the acquisition of an existing building and a separate Form 8609-A for the allocation(s) for rehabilitation expenditures.

If the building owner is a partnership, S corporation, estate, or trust (pass-through entity), the entity will complete Form 8609 and Form 8609-A. The entity will attach Form 8609-A to its tax return. If you are a partner, shareholder, or beneficiary in the pass-through entity that owns the building, file only Form 8586, Low-Income Housing Credit, to claim the credit using the information that the entity furnishes you on Schedule K-1.

#### **Recapture of Credit**

If the qualified basis of the building has decreased from the qualified basis at the close of the previous tax year, you may have to recapture parts of the credits allowed in previous years. See Form 8611, Recapture of Low-Income Housing Credit.

#### Sale of Building

Upon a change of ownership, the seller should give the new owner a copy of the Form 8609 (Parts I and II complete). This form allows the new owner to substantiate the credit.

### **General Instructions**

Section references are to the Internal Revenue Code unless otherwise noted.

### What's New

• The tax liability limit is no longer figured on this form; instead, it must be figured on Form 3800, General Business Credit.

• Taxpayers that are not partnerships, S corporations, estates, or trusts, and whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on line 1k of Form 3800.

• The IRS will revise this December 2006 version of the form only when necessary. Continue to use this version for tax years beginning after 2005 until a new revision is issued.

### Purpose of Form

Use Form 8820 to claim the orphan drug credit. The credit is 50% of qualified clinical testing expenses paid or incurred during the tax year. See section 45C and Regulations section 1.28-1 for details.

### Definitions

### Qualified clinical testing expenses.

Generally, qualified clinical testing expenses are amounts paid or incurred by the taxpayer that would be described as qualified research expenses under section 41, with two modifications:

• In sections 41(b)(2) and (3), "clinical testing" is substituted for "qualified research" and

• 100% (instead of 65% or 75%) of contract research expenses are treated as clinical testing expenses.

Qualified clinical testing expenses do not include expenses to the extent they are funded by a grant, contract, or otherwise by a governmental entity or another person.

**Clinical testing.** Generally, clinical testing means any human clinical testing that meets all four of the following conditions.

**1.** The testing is carried out under an exemption for a drug being tested for a rare disease or condition under section 505(i) of the Federal Food, Drug, and Cosmetic Act (Act).

**2.** The testing occurs after the date the drug is designated under Act section 526 and before the date on which an application for the drug is approved under Act section 505(b) (or, if the drug is a biological product, before the date the drug is licensed under section 351 of the Public Health Service Act).

**3.** The testing is conducted by or for the taxpayer to whom the designation under Act section 526 applies.

**4.** The testing relates to the use of the drug for the rare disease or condition for which it was designated under Act section 526.

**Rare disease or condition.** A rare disease or condition is one which afflicts:

• 200,000 or fewer persons in the United States or

• More than 200,000 persons in the United States, but for which there is no reasonable expectation of recovering the cost of developing and making available a drug in the United States for the disease from sales of the drug in the United States.

The above determinations are made as of the date the drug is designated under Act section 526.

## Testing Not Eligible for the Credit

The credit is not allowed for clinical testing conducted outside the United States unless there is an insufficient U.S. testing population and the testing is conducted by a U.S. person or by another person not related to the taxpayer. Testing conducted either inside or outside the United States by a corporation to which section 936 applies is not eligible for the orphan drug credit.

# Coordination With the Research Credit

Qualified clinical testing expenses used to figure the orphan drug credit cannot also be used to figure the credit for increasing research activities. However, any of these expenses that are also qualified research expenses must be included in base period research expenses when figuring the credit for increasing research activities in a later tax year.

### **General Instructions**

Section references are to the Internal Revenue Code.

### **Purpose of Form**

Use Form 8864 to figure your biodiesel and renewable diesel fuels credit. Claim the credit for the tax year in which the sale or use occurs. This credit consists of the:

- Biodiesel credit,
- Renewable diesel credit,
- Biodiesel mixture credit,
- Renewable diesel mixture credit, and
- Small agri-biodiesel producer credit.

The tax liability limit is no longer figured on this form; instead, it must be figured on Form 3800, General Business Credit.

### **Definitions and Special Rules**

#### Certification

To claim a credit on lines 1 through 6, you generally must attach the Certificate for Biodiesel and, if applicable, Statement of Biodiesel Reseller, to Form 8864. To claim a credit on lines 3 or 6, the certificate must indicate at all appropriate locations that the fuel to which it relates is renewable diesel and state that the fuel meets the requirements discussed under *Renewable Diesel* on page 2. However, if the certificate or statement was attached to a previously filed claim, attach a separate sheet with the following information.

• Certificate identification number.

• Total gallons of agri-biodiesel, biodiesel other than agri-biodiesel, or renewable diesel on the certificate.

- Total gallons claimed on Schedule 3 (Form 8849).
- Total gallons claimed on Schedule C (Form 720).
- Total gallons claimed on Form 4136.

See Notice 2005-62 on page 443 of Internal Revenue Bulletin 2005-35 or Pub. 510, Excise Taxes, for the model certificate and statement.

#### Biodiesel

Biodiesel means the monoalkyl esters of long chain fatty acids derived from plant or animal matter which meet the registration requirements for fuels and fuel additives established by the Environmental Protection Agency (EPA) under section 211 of the Clean Air Act, and the requirements of the American Society of Testing and Materials (ASTM) D6751.

Biodiesel includes both agri-biodiesel and biodiesel other than agri-biodiesel.

#### Agri-Biodiesel

Agri-biodiesel means biodiesel derived solely from virgin oils, including esters derived from virgin vegetable oils from corn, soybeans, sunflower seeds, cottonseeds, canola, crambe, rapeseeds, safflowers, flaxseeds, rice bran, and mustard seeds, and from animal fats.

### What's New

• The tax liability limit is no longer figured on this form. Instead, it must be figured on Form 3800, General Business Credit.

• Taxpayers that are not partnerships or S corporations, and whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on line 1I of Form 3800.

• The IRS will revise the January 2007 version of the form only when necessary. Continue to use this version for tax years beginning after 2005 until a new revision is issued.

### Purpose of Form

Use Form 8874 to claim the new markets credit for qualified equity investments made in qualified community development entities (CDEs). This credit is part of the general business credit.

### Definitions

### Qualified CDE

A qualified CDE is a domestic corporation or partnership that meets the following requirements.

• Its primary mission is serving, or providing investment capital for, low-income communities or persons.

• It maintains accountability to residents of low-income communities through their representation on any governing board or advisory board of the entity.

• It is certified as a qualified CDE by the Community Development Financial Institutions (CDFI) Fund of the Department of the Treasury.

Qualified CDEs also include specialized small business investment companies and community development financial institutions. See section 45D(c)(2).

### **Qualified Equity Investment**

A qualified equity investment is an interest in a qualified CDE in the form of stock (other than nonqualified preferred stock) in a corporation or a capital interest in a partnership that meets all of the following requirements.

• You acquired the investment solely for cash at its original issue (or from a taxpayer for whom the investment was a qualified equity investment). The cash may be from borrowed funds, including a nonrecourse loan.

• Substantially all (at least 85%) of the cash is used to make qualified low-income community investments. The 85% requirement is reduced to 75% for the seventh year of the 7-year credit period.

• The investment was designated as a qualified equity investment by the CDE on its books and records for purposes of the new markets credit.

Generally, a qualified CDE can designate an equity investment as a qualified equity investment only if it applied for and received a new markets credit allocation and entered into an allocation agreement with the CDFI Fund **before** the equity investment was made.

Qualified CDEs must provide taxpayers holding a qualified equity investment with a completed Form 8874-A when a qualified equity investment is acquired.

**Exceptions.** An equity investment in an entity that otherwise qualifies as a qualified equity investment is eligible to be designated as a qualified equity investment if made prior to an allocation agreement only if either of the following applies.

• The equity investment was made on or after April 20, 2001, and the designation of the equity investment as a qualified equity investment is made for a credit allocation received under an allocation application submitted to the CDFI Fund no later than August 29, 2002. If the entity in which the equity investment is made does not receive an allocation under an allocation application submitted no later than August 29, 2002, the equity investment will not be eligible to be designated as a qualified equity investment. For details, see Regulations sections 1.45D-1(c)(3)(ii)(A) and 1.45D-1(c)(3)(iii).

### **General Instructions**

Section references are to the Internal Revenue Code.

### What's New

• The tax liability limit is no longer figured on this form. Instead, it must be figured on Form 3800, General Business Credit.

• Taxpayers that are not partnerships or S corporations, and whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on line 1m of Form 3800.

• The IRS will revise this December 2006 version of the form only when necessary. Continue to use this version for tax years beginning after 2005 until a new revision is issued.

### **Purpose of Form**

Eligible small employers use Form 8881 to claim the credit for qualified startup costs incurred in establishing or administering an eligible employer plan.

The credit is allowed under section 45E and is part of the general business credit. You may elect, however, to have section 45E not apply for the tax year the credit is available by not claiming it on your tax return for that year.

### How To Figure the Credit

For an eligible small employer, the credit is 50% of the qualified startup costs paid or incurred during the tax year. The credit is limited to \$500 per year for the first credit year and each of the following 2 tax years. No credit is allowed for any other tax year.

**Eligible small employer.** To be an eligible small employer, you must have had no more than 100 employees during the tax year preceding the first credit year who received at least \$5,000 of compensation from you during that tax year. However, you are not an eligible small employer if, during the 3 tax years preceding the first credit year, you established or maintained a qualified employer plan with respect to which contributions were made, or benefits were accrued, for substantially the same employees as are in the new qualified employer plan. See section 45E(c) for rules for controlled groups and predecessor employers.

**Qualified startup costs.** Qualified startup costs are expenses paid or incurred in connection with: (a) establishing or administering an eligible employer plan; or (b) the retirement-related education of employees about the plan.

**Eligible employer plan.** An eligible employer plan is a qualified employer plan (as defined in section 4972(d)) with at least one employee eligible to participate who is not a highly compensated employee. All eligible employer plans of the same employer are treated as one eligible employer plan.

**First credit year.** The first credit year generally is your tax year that includes the date that the eligible employer plan becomes effective. However, you may elect to have the preceding tax year be the first credit year, and claim the credit for qualified startup costs paid or incurred during that tax year. For example, a calendar-year eligible small employer whose eligible plan is first effective on January 1, 2007, may elect to treat 2006 as the first credit year and claim the credit on its 2006 tax return for qualified startup costs incurred in 2006.

### No Deduction Allowed for Credit Amount

You must reduce your otherwise allowable deduction for startup costs by the credit amount on line 2.

### **Controlled Groups**

For purposes of figuring the credit, all members of a controlled group of corporations (as defined in section 52(a)), all members of a group of businesses under common control (as defined in section 52(b)), and all members of an affiliated service group (as defined in section 414(m)), are treated as a single employer. As a member, compute your credit based on your proportionate share of qualified startup costs giving rise to the group's credit for small employer pension plan startup costs. Enter your share of the credit on line 2. Attach a statement showing how your share of the credit was figured, and write "See Attached" next to the entry space for line 2.

**Paperwork Reduction Act Notice.** We ask for the information on this form to carry out the Internal Revenue laws of the United States. You are required to give us the information. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by section 6103.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated burden for individual taxpayers filing this form is approved under OMB control number 1545-0074 and is included in the estimates shown in the instructions for their individual income tax return. The estimated burden for all other taxpayers who file this form is shown below.

### **General Instructions**

Section references are to the Internal Revenue Code.

### What's New

• The tax liability limit is no longer figured on this form. Instead, it must be figured on Form 3800, General Business Credit

 Taxpayers that are not partnerships, S corporations, estates, or trusts, and whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on line 1n of Form 3800.

• The IRS will revise this December 2006 version of the form only when necessary. Continue to use this version for tax years beginning after 2005 until a new revision is issued.

#### **Purpose of Form**

Employers use Form 8882 to claim the credit for gualified childcare facility and resource and referral expenditures. The credit is part of the general business credit. You may claim the credit any time within 3 years from the due date of your return on either an original or amended return.

For details, see section 45F.

### How To Figure the Credit

The credit is 25% of the qualified childcare facility expenditures plus 10% of the qualified childcare resource and referral expenditures paid or incurred during the tax year. The credit is limited to \$150,000 per tax year.

Qualified childcare expenditures are amounts paid or incurred:

- To acquire, construct, rehabilitate, or expand property that:
  - 1. Is to be used as part of a qualified childcare facility of the taxpayer,
  - 2. Is depreciable (or amortizable) property, and
  - 3. Is not part of the principal residence of the taxpayer or any employee of the taxpayer;

• For the operating expenses of a qualified childcare facility of the taxpayer, including expenses for training of employees, scholarship programs, and providing increased compensation to employees with higher levels of childcare training; or

• Under a contract with a qualified childcare facility to provide childcare services to employees of the taxpayer.

Note. Any expenses for childcare included in gualified childcare facility expenditures may not exceed the fair market value of such care.

A qualified childcare facility is a facility that meets the requirements of all applicable laws and regulations of the state or local government in which it is located, including the licensing of the facility as a childcare facility. The following conditions must also be met.

• The principal use of the facility must be to provide childcare (unless the facility is also the personal residence of the person operating the facility).

• Enrollment in the facility must be open to employees of the taxpaver during the tax year.

### Low Sulfur Diesel Fuel Production Credit

OMB No. 1545-1914

Attach to your tax return.

Attachment Sequence No. **142** 

Identifying number

1	Low sulfur diesel fuel produced (in gallons)	1	
2	Multiply line 1 by \$.05	2	
3	Qualified capital costs limitation (see instructions)	3	
4	Total low sulfur diesel fuel production credits allowed for all prior tax years	4	
5	Subtract line 4 from line 3	5	
6	Enter the smaller of line 5 or line 2	6	
7	Low sulfur diesel fuel production credit from partnerships, S corporations, and cooperatives	7	
8	Add lines 6 and 7. Cooperatives go to line 9; partnerships and S corporations, report this amount		
	on Schedule K; all others, report this amount on the applicable line of Form 3800 (e.g., line 1q of the 2006 Form 3800)	8	
9	Amount allocated to the patrons of the cooperative	9	
10	Subtract line 9 from line 8. Report this amount on the applicable line of Form 3800 (e.g., line 1q		
	of the 2006 Form 3800)	10	

### **General Instructions**

Section references are to the Internal Revenue Code.

### What's New

• The tax liability limit is no longer figured on this form; instead, it must be figured on Form 3800, General Business Credit.

• Taxpayers that are not partnerships, S corporations, or cooperatives, and whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on line 1q of Form 3800.

• The IRS will revise this December 2006 version of the form only when necessary. Continue to use this version for tax years beginning after 2005 until a new revision is issued.

### **Purpose of Form**

Use Form 8896 to claim the low sulfur diesel fuel production credit.

The credit generally is 5 cents for every gallon of low sulfur diesel fuel produced by a qualified small business refiner during the tax year. However, the total credits allowed for all tax years cannot be more than the refiner's qualified capital costs limitation on line 3. This credit is part of the general business credit.

### Definitions

#### Low Sulfur Diesel Fuel

This is diesel fuel with a sulfur content of 15 parts per million or less.

#### **Small Business Refiner**

A small business refiner generally is a refiner of crude oil with an average daily domestic refinery run or average retained production for all facilities that did not exceed 205,000 barrels for the 1-year period ending on December 31, 2002. To figure the average daily domestic refinery run or retained production, only include refineries that were refineries of the refiner or a related person (within the meaning of section 613A(d)(3)) on April 1, 2003. However, a refiner is not a small business refiner for a tax year if more than 1,500 individuals are engaged in the refinery operations of the business on any day during the tax year.

#### **Qualified Capital Costs**

For each facility, qualified capital costs are costs paid or incurred to comply with the highway diesel fuel sulfur control requirements of the Environmental Protection Agency (EPA) during the period beginning January 1, 2003, and ending on the earlier of:

• The date 1 year after the date on which the refiner must comply with these EPA requirements with respect to such facility or

• December 31, 2009.

Qualified capital costs include costs for the construction of new process operation units or the dismantling and reconstruction of existing process units to be used in the production of low sulfur diesel fuel, associated adjacent or offsite equipment (including tankage, catalyst, and power supply), engineering, construction period interest, and site work.

In addition, the small business refiner must obtain certification from the IRS (which will consult with the EPA) that the taxpayer's qualified capital costs will result in compliance with the applicable EPA regulations. This certification must be obtained not later than the date that is 30 months after the first day of the first tax year in which the credit is determined.

#### **Additional Information**

For more details, including basis reduction, see section 45H.

### **Specific Instructions**

Use lines 1 through 6 to figure any low sulfur diesel fuel production credit from your own trade or business.

#### Cooperative Election To Allocate Credit to Patrons

A cooperative described in section 1381(a) can elect to allocate any part of the low sulfur diesel fuel production credit among the patrons of the cooperative. To make the election, attach a statement to the effect that the cooperative elects to allocate the credit among the patrons eligible to share in patronage dividends on the basis of the quantity or value of business done with or for the patrons for the tax year.

The election is not effective unless:

• Made on a timely filed return (including extensions). However, if the cooperative made an election on a tax return for a tax year ending after December 31, 2002, and filed before June 15, 2006, but failed to attach the required statement, the cooperative may attach that statement to the first federal income tax return it files after June 14, 2006.

• The cooperative designates the apportionment in a written notice mailed to its patrons during the payment period described in section 1382(d).

If you timely file your return without making an election, you can still make the election by filing an amended return with the statement within 6 months of the due date of the return (excluding
